

Merve Özdił

Motion Graphic Artist

I graduated from İstanbul Bilgi University with a degree in Visual Communication Design in 2021. The multidisciplinary nature of my education helped me explore different creative fields and build a strong foundation in visual storytelling.

For the past four years, I've been working as a **Motion Graphic Artist** at **DDB Group İstanbul**, creating videos for television and social media platforms. I create weekly **advertising videos** and **lower thirds-banners** for **Şok Marketler**, and also work on campaigns for brands such as **Volkswagen** and **Bosch** etc.

What motivates me most is seeing my work reach people and spark interaction. That sense of connection inspires me to keep improving myself and be involved in creative projects.
